

# DUNHAM SCHOOL DISTRICT

---

March 23, 2020

Hello Dunham Families,

I hope you are all doing well in these very abnormal times. I wanted to give you an update as spring break comes to a close. As you know, last week Governor Newsom issued a statewide Shelter in Place as a step to slow down and prevent the community spread of the COVID-19 virus. This includes students staying home from school. We are unsure how long this order from the Governor will last. So far, there is no end date assigned to the Shelter in Place order.

### **Distance Learning:**

Distance, or at home, learning is an opportunity for our community's children to maintain their skills and continue studying while they are home from school. Like everything else related to this crisis, this will be flexible and subject to change. No one is going to be penalized as we all work through the details of keeping our community's students engaged and learning.

Teachers will be contacting their classroom families/students over the next couple of days with more directions. Depending upon the grade level and the amount of digital content, there will be learning materials that need to be picked up.

### **Learning Materials Pick Up**

On Thursday of this week (3/26), we will be having a "drive through" learning materials pick up day. We ask that you pull into the Dunham parking lot and stay to the left as if you were heading towards parent drop off and pick up. Please pull up to the double doors outside of the Community Room. Once there, roll down your window and share your child's or children's grade and name and we will have learning material to pass on to you. Please do not get out of your car. Please do not park or let people out of your car. Please do not use the playground. We are working hard to provide the safest situation possible. It is a grab-and-go approach.

**To prevent overcrowding please follow this pick up schedule:**

**8:00-10:00** *Last names* starting with the letters **A-H**

**10:00-12:00** *Last names* starting with the letters **I-R**

**12:30-2:30** *Last names* starting with the letters **S-Z**

Not all students will have materials to pick up; some have already gotten it or will get it digitally. If your student does not have material to pick up your child's teacher will let you know prior to Thursday.

### **Meals**

I want to bring to your attention that there are several community options for meals for any child ages 0-18. The children do need to be present with the adult picking up the grab-and-go curbside meals.

You can get these curbside meals Mondays through Fridays, 11:00AM-1:00PM at:

Rancho Cotati High School - 5450 Snyder Lane  
Technology Middle School - 7165 Burton Avenue  
Lawrence Jones Middle School - 5154 Snyder Lane

Other cities like Sebastopol, Santa Rosa, and Petaluma are offering similar programs. Please call the Dunham School Office if you would like more information.

### **Connectivity**

Comcast/Xfinity has offered free connectivity to low income families with students during school closures. The contact number is 1-800-934-6489. Sonic is also offering three months of free internet access. <https://www.sonic.com/cov19>

### **Students with Special Needs with IEPs**

We are working to determine the best ways to provide services to students with special needs. Please be patient with us as we use the next week to develop a more detailed plan.

### **Using our Schools During Closure**

We ask that you not bring your children to campus during the closures. Doing so could defeat the purpose of slowing the spread of the virus.

### **All Activities Postponed**

Activities like the school wide picture, campus clean up, and our Showcase / Open House are all postponed.

### **Unprecedented times**

The last couple of weeks have been very challenging for everyone, not just at our school or in our community but throughout the whole world. We miss your children already and teachers are anxious to get started working with them this week, even if it is from a distance. Distance learning is new to all of us. I met with the teachers this morning via a Zoom conference and was once again amazed at all the wonderful things they have been working on to help and support our students during these difficult times. Dunham teachers are truly amazing! Tell your little ones that all of our staff misses them and we look forward to seeing them soon!

Take care and stay safe,

*Daniel Hoffman*

Daniel Hoffman, Superintendent / Principal  
Dunham School District
