📚🍎 California School Immunization Requirements 💉

As we get ready for a great school year, please make sure your child's immunization records are up to date!

For students entering TK/Kindergarten or newly enrolling/transferring into a California school, the general immunization requirements are:

💉 DTaP (Diphtheria, Tetanus & Pertussis) – 5 doses
💉 Polio – 4 doses
💉 Hepatitis B – 3 doses
💉 MMR (Measles, Mumps & Rubella) – 2 doses
💉 Varicella (Chickenpox) – 2 doses

⭐ Students entering 7th grade must also have 1 dose of Tdap.

📋 Please provide the school office with an updated copy of your child's immunization record.

Some exceptions apply to the number of doses required, depending on the age when particular doses were received.

Thank you for helping us start the school year with all required student records complete! 💚🐉
